

STAKEHOLDER CONFIRMATION LETTER

Project: Mangojane Integrated Funeral Management System Prototype

Institution: Central University of Technology, Free State

Course: ITC327W – Work-Integrated Learning

Date: 27 August 2026

1. STAKEHOLDER DETAILS

Field	Information
Organisation	Mangojane Funeral Parlor
Location	Welkom, Free State Province
Stakeholder Name	Lerato Moipone Mangojane
Position	Owner
Contact	Lerato.mangojane@gmail.com

2. PROJECT OVERVIEW

Mangojane Funeral Parlor has agreed to participate as the external stakeholder for the **ITC327W – Work-Integrated Learning** software development project.

The project aims to develop an **Integrated Funeral Management System Prototype** consisting of the following components:

- **Flutter Mobile Application** – Allows clients to view available funeral packages and submit booking requests.
- **ASP.NET Core Web Portal** – Allows administrators to manage bookings, resources, policies and funeral logistics.
- **Supabase Backend** – Provides a shared cloud database with real-time data synchronisation between the mobile application and web portal.

The system is being developed as an **academic prototype** to demonstrate how technology can improve the management of funeral services and related operational processes.

3. CONFIRMATION OF STAKEHOLDER ENGAGEMENT

I, the undersigned representative of **Mangojane Funeral Parlor**, confirm that the organisation has participated in and/or provided information relevant to the development of this academic project.

#	Confirmation	✓
1	Our organisation participated in the project requirements-gathering process.	
2	We provided information to help the students understand our current operational processes.	
3	We reviewed the proposed funeral management system requirements.	
4	We confirmed the operational problems and needs identified during the requirements analysis.	
5	We agreed with the proposed project scope and solution approach.	
6	We understand that the developed system is an academic prototype and not a production system.	
7	We consent to the use of relevant, non-confidential and anonymised process information for academic purposes.	

4. CONFIRMED OPERATIONAL PROBLEMS

The following operational challenges were identified and confirmed as areas that could benefit from improved digital management:

- Double-booking of hearses and other funeral equipment.
 - Misplacement or difficulty locating policy payment cards and receipts.
 - Long queues and delays experienced by families during service arrangements.
 - Limited real-time visibility of bookings and operational activities.
 - Conflicts and errors resulting from the use of manual paper diaries.
 - Difficulty maintaining accurate and up-to-date booking and resource information.
-

5. CONFIRMED SYSTEM REQUIREMENTS

The following key functional requirements were reviewed and confirmed as relevant to the proposed prototype:

ID	Requirement	Priority
FR1	Client registration and authentication	MUST HAVE
FR2	Mobile funeral package catalogue viewer	MUST HAVE
FR3	Mobile booking request submission	MUST HAVE
FR4	Real-time booking status tracking	MUST HAVE
FR5	Administrator booking approval console	MUST HAVE
FR6	Hearse and asset scheduling system	MUST HAVE
FR7	Policy and payment management	MUST HAVE

ID	Requirement	Priority
FR8	Daily dispatch reports	SHOULD HAVE

6. CONFIRMED PROJECT EXCLUSIONS

The following functionality has been confirmed as **outside the scope of the academic prototype**:

- Live banking or payment gateway integration. Payment functionality will be simulated where required.
 - Direct integration with the Department of Home Affairs (DHA) death certificate systems.
 - Hardware-based GPS tracking of funeral vehicles.
 - Any functionality requiring the prototype to operate as a fully deployed commercial production system.
-

7. STAKEHOLDER ACKNOWLEDGEMENT

By signing this document, the stakeholder confirms that:

- The information contained in this document accurately represents the stakeholder's understanding of the project.
 - The proposed system requirements have been reviewed and discussed.
 - The identified operational problems are relevant to the organisation's processes.
 - The stakeholder understands that the project is being developed for **academic purposes**.
 - The stakeholder understands that the system is a **prototype** and is not intended to replace the organisation's existing production systems.
 - The stakeholder agrees to the use of relevant, anonymised and non-confidential information for the purposes of the ITC327W academic project.
-

8. STAKEHOLDER SIGNATURE

Stakeholder Signature:

Full Name: Lerato Moipone Mangojane

Position: Owner – Mangojane Funeral Parlor

Contact Number: 082 686 5776

Email Address: mangojanefuneralparlour.25@gmail.com

Date: 27 August 2026

9. STUDENT REPRESENTATIVE

Student Name	Student Number	Signature
Hlompho Compact Malejane	222025549
